Services

Manned and Mobile security services

Mobile security officers carry out regular patrols to physically check that everything is as it should be in the premises and in their surroundings.

The officer produces a report following each visit and where there is an immediate problem that needs dealing with, the client would be informed immediately and where necessary, the officer would contact and liaise with the police.

Manned security services give you guards that provide a constant presence at the site being guarded.

02 Front House security

Our front of house officers are trained to provide great customer service with good communication skills. They have gone through conflict management training and give friendly smiling faces to welcome visitors.

They are neat and smart at all times and handle guests courteously and professionally.

03 Event Security

We prepare a risk assessment report before the date through continuous consultative meetings with events stakeholders. We set up a temporary control room at the venue of the event that facilitates the entire security coordination during the event.

Our company also works with the police at all sorts of events. We are also a flexible workforce that is trained, vetted and trained to respond to short notice to manage events.

04 **Vip protection and escort**

We offer VIP security personnel that are highly trained security specialists with expertise and experience in all aspects of personnel protection for individuals and groups of people.

Provide covers at home and on the move, shadow special visitors, plan routes, prepare venues and ensure strict scheduling of planned events by our security agents and professional drivers as well.

05 **General Security Consultancy**

Our company enters any consulting assignment with unique and detailed information on your facility, workflow, security systems and business goals.

This knowledge combined with high security services experience and collaborative discussion with your stakeholders help you to find the security solution that works best for you and your business.

06

Parking lot security

Lelo security service limited will keep watch over your organization's parking facilities and car parking at events. Officers carry out frequent but deliberate patrols to ensure visitors park correctly in the designated spaces and enforces roles and charges.

07

K9 Units

These K9 units have superior dog breeds observed, selected and extensively trained by a team of experts in dog handling. They are sensitive to sniffing drugs, cash notes and others. We also have attack dogs that provide a high profile deterrent against thieves and vandals.

08

Background checks and screening

We provide background screening services to prospective clients to track down people, valuable details and evidence. The investigators use tech skills and information to know how to regularly access online public records and private databases and or act as undercovers detectives to unearth information that is risky and or suspicious.

09 Installation of closed circuit televisions (CCTVs)

We install cameras at appropriate areas of protection as per the client's preference. The CCTVs comprises cameras, monitors and video recordings that allow the client to monitor all the activities while absent or present.

CCTV can also be computer based which allows the client to monitor all the activities from a certain location or through networking

10 Supply security equipment

We provide a wide range of security equipment that covers a wide assortment of protection, identification, surveillance and detection services such as alarm systems, cameras, closed-circuit televisions etc.

We also provide some basic items such as tags, cases, access cards, smart locks and mirrors

Fleet tracking and management systems

Whether you want to find your car, motorbike, boat, moving asset or truck; simply use our tracking device and you will know where it is through SMS to your mobile phone. This is made possible by using our tracking device which is designed to work with any GSM phone. With this service you get security of what you are tracking and peace of mind. You also get instant notifications through phone and listen to the surroundings with the remote microphone

Alarm & Response Unit

We have alarms that are wired using the close-circuit principle that can not be detected to avoid being cut with push buttons that are manually operated. In case of an emergency the push button is pressed which activates the transmitter to call for back up.

We also have domestic automatic alarm systems that consists of two magnets or contacts, the passive infrared sensors, a panel that controls the above and a minimum of three panic buttons. The system detects intrusion and triggers the alarm. As soon as the alarm receiving center gets the signal, we respond quickly, contact the police and even reach the premises before the police.
